# Windows To Go (Windows 10) Upgrade anniversary update?

[Windows 10 IT Pro](#) > [Windows 10 Installation, Setup, and Deployment](#)

## Question

Possible to install/upgrade to the Windows 10 anniversary update?  
Error presented when i try apply update from new ISO  
"You can't install Windows on a USB flash drive using Setup."

## Answers

Figured it out.  
Download ISO: Windows 10 1607 Build  
Run Regedit  
Navigate to: HKEY\_LOCAL\_MACHINE\SYSTEM\CurrentControlSet\Control  
Change the value PortableOperatingSystem from "1" to "0"  
Reset.  
Mount ISO, run setup.exe.

Thanks!  
That worked for me :)

Waltsie

Seems to be working for me as well. Good stuff
